Introduction

In the last decades, the international policy debate has devoted increased attention to the possibilities of preventing local conflicts from escalating to war, regional conflagration and international crises. A series of armed conflicts such as cases as Rwanda and Kosovo have resulted in major human disasters and even genocide. These and other cases point to the necessity of finding effective means to prevent conflicts from escalating and finding a solution at an early stage. For many international actors like the UN and regional organizations conflict prevention is one of the most important items on the international agenda today.

Purpose

The rationale for creating this dataset is to enable the systematic study of third party conflict management in low-level armed conflicts. Previous research has largely relied on inferences from particular cases of conflict prevention and management. Consequently, theoretically informed systematic studies would constitute novel and important contributions to basic as well as policy oriented research. Meanwhile, the absence of systematic studies can to a large extent be explained by lack of data. For this reason, and in order to promote systematic research, in 2005 the Folke Bernadotte Academy commissioned and financed the Uppsala Conflict Data Program (UCDP) at the Department of Peace and Conflict Research, Uppsala University, to compile an event dataset to be publicly available. The User Manual was jointly developed and the work was carried out in close consultation with the Folke Bernadotte Academy's research adviser Birger Heldt.

Basic definitions

For the purpose of this dataset, some basic concepts need to be defined. MILC uses the Uppsala Conflict Data Program (UCDP) key definitions¹:

| Armed Conflict | A contested incompatibility that concerns government and/or territory where the |
|--------------------|--|
| | use of armed force between two parties, of which at least one is the government of |
| | a state, results in at least 25 battle-related deaths in one calendar year. |
| Conflict Intensity | Intensity is coded in two categories: <i>Minor</i> . At least 25 battle-related deaths per |
| | year and fewer than 1,000 battle-related deaths during the course of the conflict. |
| | War. at least 1000 battle-related deaths per year. |

¹ For these and other UCDP definitions, see http://www.pcr.uu.se/database/definitions_all.htm#o

| Dyad | A dyad is two conflict units that are parties to a conflict. One of these units has to be an armed challenger while the other unit has to be the challenged one, for example; government vs. opposition group (Any non-governmental group of people having announced a name for their group and using armed force) or two alliances fighting each other (the alliance is connected by its position in the incompatibility). |
|-----------------|--|
| Incompatibility | The stated (in writing or verbally) generally incompatible positions: Incompatibility concerning government: Incompatibility concerning type of political system, the replacement of the central government or the change of its composition. Incompatibility concerning territory: Incompatibility concerning the status of a specified territory, e.g. secession or autonomy (intrastate conflict). |
| Third party | A third party is a party that is involved in either helping the warring parties to regulate the incompatibility, the conflict behaviour or to regulate other conflict issues and work as an intermediary between the two. The consequences of the involvement of a third party may be to the benefit of one of the warring parties, or, in the extreme case, the third party may even become militarily involved against one of them, such as UN operations. If a party, most often the forces of a peacekeeping or a peace enforcement operation – more likely the latter – becomes involved in violence, this does not necessarily mean that it is being treated as a warring party. It is the behaviour and the incompatibility combined, that decides who is a warring party and who is not. See UCDP database definitions for how to distinguish between third party and warring party. |
| Warring Party | A warring party is an actor who uses armed force to promote its position in the incompatibility. |

The Data

Case selection

The dataset is of global reach, covers 1993-2004², and includes all low intensity intrastate armed dyads. The conflict dyad structure of MILC is based on the list of armed conflicts found in UCDP/PRIO Armed Conflict Dataset (Gleditsch, Nils Petter, Peter Wallensteen, Mikael Eriksson, Margareta Sollenberg & Håvard Strand, 2002. "Armed Conflict 1946-2001: A New Dataset." *Journal of Peace Research 39(5): 615-637.*) The dataset include all minor armed conflict years and the first inactive year following an active one. Furthermore, it includes years at the level of war *if* the dyad has never experienced conflict before, i.e. the very first year of armed conflict is at the level of war. Ideally, we would like to only include the months leading up to the date when the

⁻

² Each year is coded from January 1 to December 31. However, if the dyad started later than January 1 for a given year, that date was noted and used as a start for the coding procedures. The same course of action was applied with the end of a dyad. If a dyad was terminated before December 31st, for a given year, that date was marked as to end the conflict dyad. We define start of dyad by first stated goal of incompatibility or first battle related death and define termination of a dyad as victory, or the dissolution of combating party, according to UCDP database.

battle-related deaths reached the threshold of war. Since, we do not have information on these dates we have included the whole year in order to ensure that the low-level phase of the dyad is included.

Some restrictions were put on this list of dyads. Once a dyad with a history of minor conflict reaches the level of war it is no longer included, even if subsequent years consist of less intense fighting. Also, dyads were excluded if they had reached the level of war *before* 1993. See Appendix E and F for a list of the total population of dyads and the intensity level for each dyadyear.

The case selection generates a total population of 127 dyads in 76 conflicts, of which 89 dyads were the targets of third party measures. In these 89 dyads, a total of 3471 events were registered. Consequently, no third party efforts were made in 38 dyads,

The structure of the dataset

The MILC dataset is an event-dataset. Each row in the dataset represents one event. Each event is identified in relation to a specific type of third party, type of measure and must be continuous in time. One occurrence of third party activity (i.e. an occurrence of indirect talks) is disaggregated into several rows *if* there are several different types of third parties³ involved in that occurrence. E.g. if indirect talks were mediated by both a number of states and an IGO, the talks are disaggregated into two rows in the dataset: one with the states as an intermediary and one with the IGO as the intermediary. In other words, two rows in the dataset represent one actual occurrence.

_

³ Third parties are coded as either a single state, group of states, single IGO, group of IGO:s, or other type. See "description of the variables" below.

DESCRIPTION OF THE VARIABLES

| Column | Variable name | Explanation |
|----------|---------------------------------------|--|
| BASIC IN | FORMATION | |
| A | Conflict name | For conflict regarding government: country name is given, e.g., Angola. For conflict regarding territory: country name with the name of the contested territory within a parenthesis are given, e.g., Angola (Cabinda). |
| В | Country ID (COW) | Country identification code. Correlates of War (COW) country IDs are used. See Appendix A. |
| С | Country ID (GW) | Country identification code. Gleditsch/Ward IDs are used. See Appendix A. |
| D | Region ID | Region identification code. See Appendix D. |
| E | Incompatibility concerning government | "1" if conflict is over government, otherwise "0" |
| F | Incompatibility concerning territory | "1" if conflict is over territory, otherwise "0" |
| G | Side A of conflict dyad | This side is always the government, e.g., Government of Burundi. |
| Н | Side B of conflict dyad | This side is always the non-state actor. If the rebel group has changed name, this is indicated with a "/" between the old and the new name. E.g PKK / KADEK / KONGRA-GEL • For known side B: Name or names of rebel group/-s is given. • For unclear side B: "unclear" is given. Existing information |
| | | is given in the comment box, e.g., <i>Hutu rebels</i> or <i>Palestinian militants</i> . |
| I -M | Dyad 1-5 ID | Dyad identification code. See Appendix E. If unclear dyad, "-9999" |
| N | Start year | Year when event starts. |
| 0 | Activity | Coded "1" if the year in question (given in column N) is active for at least one of the dyads coded in column I-M. Otherwise coded "0". If several dyads are coded (column I-M), see Appendix F for activity for each dyad. |

| Р | Start date of event | Date when event begins, given as year-month-day (yyyy-mm-dd), e.g., 2004-05-14. Where the exact date has not been established, question marks are placed in its place, e.g., 1993-05-??. |
|---|---------------------|--|
| Q | End date of event | Date when event ends, given as year-month-day (yyyy-mm-dd), e.g., 1998-08-17. Where the exact date has not been established, question marks are placed in its place, e.g., 1993-05-??. |
| R | Source | Name of source, date, title of article and/or author. |

THIRD PARTY

In cases where the third party has dual characteristics the third party is coded in line with the formal representation (e.g. the Dutch Prime Minister representing the European Union is coded as the EU, not the Netherlands). It should be noted that the coding is based on the information found in the sources used, i.e. news articles. It is likely that this type of sources does not always provide complete information on the affiliation of the persons implementing the third party measure. Thus, there could be some events in the MILC dataset where .e.g. the individual state is coded as a third party although it actually acted on behalf of a coalition of states or an international organisation.

| | | _ |
|---|---|---|
| S | Type of Third Party 1: single state | A state is any political entity found in the List of Independent states outlined in Gleditsch, Kristian S. & Michael D. Ward. 1999 "Interstate System Membership: A Revised List of the Independent States since 1816". <i>International Interactions</i> , 25:393-413. • Coded "1" if the third party is a single state, otherwise "0". |
| | | Name of country is given in comment box. |
| Т | Type of Third Party 2: Group of states | A state is any political entity found in the List of Independent states outlined in Gleditsch, Kristian S. & Michael D. Ward. 1999 "Interstate System Membership: A Revised List of the Independent States since 1816". <i>International Interactions</i> , 25:393-413. |
| | | Coded "1" if third party is a group of states, otherwise "0". Name of coalition/grouping is given if available; otherwise name of countries are given in comment box (red corner in the Excel cell). |
| U | Type of Third Party 3: | A group of states with formal statues and a formal name. |
| | Single IGO | Coded "1" if the third party is a single IGO otherwise "0". Name of IGO is given in comment box (red corner in the Excel cell). |
| V | Type of Third Party 4: Group of IGOs | Coded "1" if third party is a group of IGOs, otherwise "0". Names of the IGOs are given in comment box (red corner in the Excel cell). |
| W | Type of Third Party 5: Other | Includes NGOs, prominent persons (i.e., independent individuals), religious denominations, etc. |
| | | • Coded "1" if the third party is an Other type of third party, otherwise "0". Name of third party is given in comment box. |
| | | |

| | | - | |
|--------|---|---|--|
| X | <i>Type of Third Party 6:</i> P5 | Coded "1" if, at least one of the third parties is a one of the permanent members of the UN Security Council. Otherwise coded "0". | |
| Υ | Type of Third Party 7: Neighboring state | • Coded "1" if, at least one of the third parties is a neighboring state to the state in conflict. Otherwise coded "0". | |
| Z | Type of Third Party 8: UN | • Coded "1" if, the third party is the UN. Otherwise coded "0". | |
| AA | Type of Third Party 9: | An IGO is a group of states with formal statues and a formal name. | |
| | | • Coded "1" if, at least one of the third parties is an IGO other than the UN. Otherwise coded "0". | |
| AB-CC | Third Party ID 1-27: (COW,GW) | Third party identification code. For country IDs, Correlates of War (COW) and Gleditsch/Ward (GW) are used, see Appendix A. For IGO and "Other" IDs, UCDP codes are used, see Appendix B and C. | |
| CD | Total number of third parties | The total number of known third parties involved in the event. Coded "-9999" if the total number is unclear. | |
| MEASUR | ES BY THIRD PARTIES | | |
| CE | Warring party | Warring party/-ies that take part or are referred to in the third party measure. • Coded as "1" if only government side is involved, otherwise "0". • Coded as "2" if only rebel side is involved, otherwise "0". • Coded "3" if both parties are involved, otherwise "0". | |
| CF | Indirect talks 1 | Talks where the warring parties are not communicating face to face, but indirectly through a third party acting as an intermediary. Typical events include shuttle diplomacy. | |
| | | Coded "1" if yes, otherwise "0". | |
| CG | Indirect talks 2 | If coded "1" for "indirect talks 1" (column CF), the topic of the talks is here given. Talks concerning the incompatibility are coded "1" if "yes", otherwise "0". Talks concerning regulation of the conflict behaviour of the warring parties (e.g., ceasefires, demilitarized zones/withdrawing troops, talks over violence) are coded "2" if "yes", otherwise "0". Talks concerning other conflict issues (e.g., refugees, preparatory talks ["talks about talks"], disarmament, security, etc.) are coded "3" if "yes", otherwise "0". Talks involving more than one of above categories are coded for each of the above mentioned categories, e.g., "1, 3", "2, 3", etc. Talks on unknown topic are coded "4" if "yes", otherwise "0". | |

| | | third party present. | |
|----|-------------------|---|--|
| | | Coded "1" if yes, otherwise "0". | |
| CI | Direct talks 2 | If coded "1" "direct talks 1" (column CH), the topic of the talks is here given. | |
| | | Talks concerning the <u>incompatibility</u> are coded "1" if "yes", otherwise "0". Talks concerning regulation of the <u>conflict behaviour</u> of the warring parties (e.g., ceasefires, demilitarized zones/withdrawing troops, talks over violence) are coded "2" if "yes", otherwise "0". Talks concerning <u>other conflict issues</u> (e.g., refugees, preparatory talks ["talks about talks"], disarmament, security, etc.) are coded "3" if "yes", otherwise "0". Talks involving more than one of above categories are coded for each of the above mentioned categories, e.g., "1, 3", "2, 3", etc. Talks on <u>unknown topic</u> are coded "4" if "yes", otherwise "0". | |
| Cl | Unclear talks 1 | Talks where the circumstances surrounding talks are unclear (e.g., unclear whether the parties talked to each other face to face or through a mediator, etc.) | |
| | | • Coded "1" if yes, otherwise "0". | |
| СК | Unclear talks 2 | If coded "1" for "unclear talks 1" (column CJ), the topic of the talks is here given. | |
| | | Talks concerning the incompatibility are coded "1" if "yes", otherwise "0". Talks concerning regulation of the conflict behaviour of the warring parties (e.g., ceasefires, demilitarized zones/withdrawing troops, talks over violence) are coded "2" if "yes", otherwise "0". Talks concerning other conflict issues (e.g., refugees, preparatory talks ["talks about talks"], disarmament, security, etc.) are coded "3" if "yes", otherwise "0". Talks involving more than one of above categories are coded for each of the above mentioned categories, e.g., "1, 3", "2, 3", etc. Talks on unknown topic are coded "4" if "yes", otherwise "0". | |
| CL | Bilateral talks 1 | Talks between a third party and <i>one</i> of the warring parties. Only talks that concern the conflict are included. Bilateral talks differ from indirect talks in that there is no considerable reason to believe that the third party is passing along information between the warring parties. Many times, bilateral talks include situations where the third party simply explores the positions of the parties. • Coded "1" if yes, otherwise "0". | |

| CL | Bilateral talks 2 | If coded "1" for "bilateral talks 1" (column CL), the topic of the talks is here given. | |
|----|-------------------------------|---|--|
| | | Talks concerning the incompatibility are coded "1" if "yes", otherwise "0". Talks concerning regulation of the conflict behaviour of the warring parties (e.g., ceasefires, demilitarized zones/withdrawing troops, talks over violence) are coded "2" if "yes", otherwise "0". Talks concerning other conflict issues (e.g., refugees, preparatory talks ["talks about talks"], disarmament, security, etc.) are coded "3" if "yes", otherwise "0". Talks involving more than one of above categories are coded for each of the above mentioned categories, e.g., "1, 3", "2, 3", etc. Talks on unknown topic are coded "4" if "yes", otherwise "0". | |
| CN | Arbitration | Third party issues a binding decision on a matter (e.g., an international court ruling). The third party is mandated by both warring parties to decide in a matter. | |
| | | • Coded "1" if "yes", otherwise "0". | |
| CD | Good Office | The third party does not actively engage in direct talks with the parties but only facilitates talks (provides venue, facilities, etc.). By good office we do not code the location for each talk, only those locations where the talks are held in a other country besides the conflicting state or the state of the mediating country. E.g. talks in Sweden between Hamas and Israeli government with USA acting as a mediator: Sweden is coded as good office. | |
| | | • Coded "1" if "yes", otherwise "0". | |
| СР | Fact finding | Officials having the purpose of establishing the facts of a matter, e.g., whether human rights abuses, instances of violence, or violations of cease-fires have taken place. Is only coded as fact-finding when referred to as such in the source. Start date is when the officials arrive on the ground, i.e., are deployed. | |
| | | • Coded "1" if "yes", otherwise "0". | |
| CQ | Permanent Observer Mission | A mission with a permanent office, carried out by the UN, IGOs or individual states, with the stated purpose to observe and/or support a peace process or conflict situation, but without any operational duties involving uniformed personnel having an official status as military troops, military observers or civilian police. | |
| | | • Coded "1" if "yes", otherwise "0". | |

| CR | Peacekeeping Operations | A third-party state intervention that: a) involves the deployment of military troops and/or military observers and/or civilian police in a target state; b) is, according to the mandate (as specified in multilateral agreements, peace agreements, or resolutions of the UN or regional organisations), established for the purpose of separating conflict parties, monitoring ceasefires, maintaining buffer zones, and taking responsibility for the security situation (among other things) between formerly, potentially, or presently warring parties; and c) is neutral towards the conflict parties, but not necessarily impartial towards their behaviour.4 |
|----|----------------------------|--|
| | | • Coded "1" if "yes", otherwise "0". |

| INFOR | INFORMATION ON WAR | | |
|-------|--------------------|--|--|
| CS | War | Refers to whether at least one dyad in question (column I-M) reaches the level of war during the years 1993-2004. • Coded "1" if "yes", otherwise "0". • Coded "-9999" if unknown dyad. | |
| СТ | War Inclusion | Whether the variable "war" (column CY) refers to all dyads coded in column I-M (dyad ID). • Coded "1" if war refers to all dyads, otherwise "0". • Coded "-9999" if unknown dyad. | |
| CU | Year of war | Year that dyad/-s reached the level of war. If the dyad/-s has reached war, the year is given. If the dyad/-s has not reached the level of war, "-9999" is given. If dyad is unknown, "-9999" is given. If there are several dyads coded in column I-M and all reach the level of war but in different years, the first year of war is coded. If there are several dyads coded in column I-M, and at least one reaches the level of war and at least one does not, the year first year of war is given. | |
| CV | Comment on war | If the variable "war inclusion" (column CK) has been coded "0" (i.e., that the information on war differs between the dyads), an explanatory comment is given: e.g., FARC reaches the level of war in 2002. However ELN, never reached war. | |
