

UCDP Actor Dataset

Version history 2.2-2013¹

¹ The latest version of this document can always be found at the dataset web page at http://www.pcr.uu.se/research/ucdp/datasets/ucdp_actor_dataset/

Introduction

This document gives a historical record of the changes made to the dataset since its initial release. It will also contain, if applicable, a list of known errata that will be updated in the next release of the dataset. We encourage scholars using the data to always use the latest version available if possible, but provide this list as a reference point as to whether or not an upgrade from a previous release of the data is necessary for a particular analysis.

New variables – Temporary Coalition IDs

When multiple non-state actors fight together in non-state conflicts and/or one-sided violence they are assigned a temporary coalition ID. Four new variables have been added to the UCDP Actor Dataset in order to give information on such temporary coalitions; OSVCoalition, OSVCoalitionID, NSCoalition, and NSCoalitionID. While OSVCoalition and NSCoalition are dummy variables indicating whether the actor has been active in a non-state conflict or one-sided violence together with other actors included in UCDP data, the variables OSVCoalitionID and NSCoalitionID list the temporary coalition IDs as they appear in the UCDP One-sided Violence Dataset and the UCDP Non-state Conflict Dataset.
